Here is my travel schedule (and phone and fax number) for your calendar and records:

To India

18 Nov. 97, Tuesday
DL 106
JFK 07:46am

19 Nov. 97, Wednesday
DL 106
(NY 11:50am)

Return to the US

30 Dec. 97, Thursday
DL 106
JFK 12:00am

We now have a mobile phone in Goa, so reach it from the US, dial:

011-91-(9822) 10 07 21

The time difference from Eastern Standard Time to Indian Time is +9 1/2 hrs

(10:00am EST is 7:30pm in Goa).

Faxes will reach me under the old fax number. It may be best to call the mobile phone number to arrange one a few faxes, I will then go to pick up.

Fax number: 011-91-(9822) 27 05 09.
10:30 2:30 PM

Bob,

James Dean just called with some info. He material...he advised that "90% may be clearings, but you never know..."

Mike and Doug Stein (716-522-7270) who are currently doing a piece for NASA. Mike is a lot of new info. Dean mentioned a place they have at the Coopman which uses some rigid film and transparent surfaces.

Solar Reflections, Inc., Fort Lauderdale, works with metalized materials (see this) and has a lot of experience with them. Their address is 3701 SW 5th St., and phone 305-564-4428.

Quantum International, 11518 Canyon Rd, East, Puyallup, Wash. 88073, phone 206-569-0172, works will vary. It's from the Apollo days to present. Use of various gauges. NASA made an enormous effort out of this, reflecting satellites in back to earth.

Miller is made by Dupont. Customer Service #800-441-7015.

Ask for Polymer Products.

He will be getting more info in the following: Lockheed Martin, for NASA. He is working on new solar array panels for space applications. They did work on the Halley telescope, the window conduit. Lockheed works out of Sunnyvale, CA.

If you want to join you may need an engineer or scientist. Please contact (practically) could be helpful. He worked on the Cluster module for the Nell. Quality East Wing.

He will send more info to me when he gets it. I thanked him, our family for his research.
